Tourist route "Picturesque Latvian Peaks"

Length of the route ~ 250 km
The route mainly uses asphalt roads;
the section Ērgļi–Ineši (18 km) has gravel roads

Facts about the route

The route goes through the highest highland in Latvia, known as the Vidzeme Highland. The average height is about 260 m above sea level. The territory contains almost all of the highest hills in Latvia, including Gaiziņkalns Hill (311.6 m above sea level), which is the highest in the country.

The route leads through a hilly and scenic territory. Sixteen picturesque views are marked on the route that can be seen from the road or view towers.

The route goes through two out of the nine protected areas in Latvia and also Gaiziņkalns Nature Park. The route combines the tourist offers of five municipalities.

Madona is often called the Latvian winter capital, **Ērgļi, Vecpiebalga** and **Jaunpiebalga** county are significant for Latvia's cultural heritage, and **Cesvaine** is proud of its majestic castle and the 19th century manor complex.
